Friday 14th December 2018	Christmas Dinner
Tuesday 18th December 2018	Class Christmas Performance
Friday 21st December 2018	Christmas Parties in Class
	Last day of term

Reading is Important

All pupils have a reading book which must be kept in their reading bag or folders and brought into school every day; it is very important that your child brings in their book every day as we often provide opportunities to read in class.

Please encourage your child to read, each day sit with them and talk to them about their book. They need to understand what they are reading – not just be able to read the words.

Try taking your child to the library – it's free to join and borrow books

Reminders

- Pupils will be having a PE lesson on **Tuesdays and Fridays**.
- Please make sure they have their P.E. kits including trainers/plimsolls with them on these days and that it is not worn under their uniform. Jewellery must not be worn at school except for stud earrings which must be removed or covered with plasters for P.E.
- Please ensure **ALL** of your child's clothing and shoes are labelled with their name. It is your child's responsibility to keep their belongings safe.
- Remember school starts at 9.00am – don't be late!
- Pupils may bring a bottle of water to drink during the day.
- Please make sure that your child is wearing appropriate clothing for the weather conditions (hat, scarf, gloves etc.).

Breakfast Club

Breakfast Club takes place every day in the Family Room from 8am to 9am at a cost of £2 per day. Call at the school office to arrange a place for your child.

Need to talk to your child's teacher?

Remember – you don't need to wait until Parents' Evenings to talk to your child's class teacher. Messages or information can be shared when you drop off /collect your child. If you need a conversation, make an appointment – your child's teacher will normally see you on the same day.

Year 6 Autumn Term 2018

RE

Celebrations

This unit gives children the chance to think philosophically and sociologically about why human beings want to celebrate and have an inner need to do so.

FRENCH

Games

This unit will be linked with P.E and music. Children will have the opportunity to listen and learn some French songs and learn new vocabulary when playing games in P.E.

HISTORY/ GEOGRAPHY

Children will catch up on History and Geography in the Summer term.

PE

Handball and Hockey

Children will be able to use a number of techniques with pace and skill to pass, dribble and shoot; make swift and confident progress towards a goal, on their own and with others.

Dance

Children will be able to develop imaginative dances in a specific style. They will choose their own music, style and dance to perform individually and as part of a group. They will also analyse and explain why they have used specific skills and techniques; modify their use of skills or techniques to improve their work and create their own success criteria for evaluating.

Health and Fitness

Children will be able to: explain how the body reacts to different kinds of exercise; choose appropriate warm ups and cool downs and explain in detail why we need regular and safe exercise..

ART/DT

Identity project

This half term the Y6 students are carrying on with their Identity project. Inspired by Wangechi Mutu's collages, the students have been working on a collage that represents what they feel their identity is. They are using a variety of resources (e.g. magazine paper, drawing, fabric, different types of paper, etc.) to visually represent their identity. Time allowing, they will also study the work of Amedeo Modigliani and his love for African art masks.

COMPUTING

E-Safety

Through discussion the children will learn how to stay safe online. The children will be given specific questions to discuss individually and as a group. The children will then create an eSafety poster.

Scratch - Debugging/10 Block Challenge

Scratch is a programming language where children can program interactive media such as stories, games, and animation. As children create with Scratch, they learn to think creatively, work collaboratively, and reason systematically. The children will be extremely confident using Scratch and they will now need to complete a series of debugging activities. This will allow them to identify problems within their own algorithms and problem solve.

SCIENCE

Evolution and Inheritance

Children will explore the information that fossils provide. They will recognise that living things produce varying offspring and identify how animals and plants are adapted to suit their environment and the possible lead to evolution.

MUSIC

Celebrations

Children will prepare for the Christmas Show focusing on learning new songs, breathing and singing techniques, reading music notation and continue developing their performing skills. They will also learn songs about Diwali, Eid and Guru Nanak.
